The discarded ties remaining from the wrecking of the Pittsburg Silver Peak railway are finding ready sale in the Divide district where they are used for lining shafts. So far over 150 sets have been sold representing 2500 ties and the company has about 40,000 more ties on hand or enough to meet all demands for a little time longer. The ties are framed in the yards of the company below the railroad station where a circular saw has been installed. The ties are in first class condition some of them having been used for a few months only.

SUICIDE CAUSED BY DESPONDENCY

Sorrow and despondency over the recent death of a friend is thought by relatives to have been the motive which caused Vivian Pearl Haliday to end her life Sunday morning in a rooming house at 118 Sierra street, Reno.

The body was found by a brother of the dead woman, Arthur Wyatt, who had called at her room to take her to breakfast, although according to the testimony offered at the inquest by Mrs. Wall, the landlady, the shot which she killed herself with was fired at about 1:30 Sunday morning. Mrs. Haliday had undressed and had prepared for bed and when found the body was lying on the bed with a .38-calibre revolver within reach. Five loaded shells and one empty one were in the revolver. The bullet entered the left breast and penetrated the heart, causing a hemorrhage and almost instant death.

She charged that he had treated her with extreme cruelty during the five years of their married life, which were spent in Bishop, Cal. As Vivian Wyatt she was well known in Genoa and Gardnerville before her marriage.

BOLSHEVISM SPREADS IN ADJACENT REPUBLIC

By Associated Press.
MEXICO CITY, March 11.—Bolshevik literature is being distributed among Mexican laborers and labor leaders. It is said, are spreading the gospel by word of mouth. These propagandists, according to reports, base their arguments on literature that is being brought into Mexico from the United States by a Bolshevik agent who is either Russian or Austrian.

According to the Examiner, the propaganda is being carried on secretly but actively, and that within a short time the results will show.

Several industrial disputes, the paper adds, were inspired by the Bolsheviks. Recent reports from Vera Cruz say that two Bolshevik agents had landed there.

Labor troubles in Tampico during the last year of the world war were blamed on I. W. W. agents instigated by Germans. The principal union labor organizations of the country, the Confederation de Sindicatos Obreros del Distrito Federal, officially denies any Bolshevik affiliations or sympathies.

DEATH OF POPULAR AUTHORESS WHO BEGAN WRITING AT FIFTY

By Associated Press.
NEW YORK, March 11.—Amelia Barr, authoress, died here last night.

Mrs. Amelia E. Barr passed the first half of her life in comparative obscurity. She ventured upon her first novel when she was 50 years of age. During the following 33 years she produced her books at the rate of about two a year, until she had 63 to her credit. In addition she had written hundreds of short stories, poems and magazine articles. For fifteen consecutive years she supplied an average of a poem and a short story a week to one publication.

Tragedies came early in her life. She was born in Ulverstone, Lancashire, England, in 1831, with the name of Amelia Huddleston. As a little girl she lost three young brothers in quick succession by death. Then came straitened finances for the family. She set out as a teacher to earn her own livelihood. Finally settling in Scotland, she met and married at the age of 19 Robert Barr, a young Scotch mill owner. Barr soon lost his mills and money. The young couple came to America

KEEPS THE CLERK CHARLES A. HOY IS GUESSING NATIONS BACK FROM CARSON

County Clerk L. E. Glass is kept busy pouring over war maps these days for the purpose of finding out what nations have been organized over night. The latest controversy arose over the naturalization of three men from German Austria who did not know what ruler they had to renounce or to what country they belonged at the time they filed their application for renewal of their first papers on which action was suspended during the war. They hail from the Tyrol and, after deliberating Mr. Glass decided he would accept their renunciation of Emperor Charles of Austria.

None of these blanks are to be had at the local office and those who have not been favored with blanks from headquarters are reduced to the extremity of copying the entire form on typewriter and filling it in as the last notice issued by the collector is that no excuse will be received for not making this report on March 15. The tentative blanks received are not accompanied by duplicates to be returned by the subscriber.

AMUSEMENTS

NORMA TALMADGE IN CLEVER CROOK PLAY

"De Luxe Annie" a crook play with a new twist, in which beautiful and talented Norma Talmadge will appear today at the Butler, is vastly different from the average crook play and infinitely superior to anything in which Miss Talmadge has yet been seen. It is the story of a finely bred woman whose husband is interested in criminal psychology and who is herself transformed into a criminal by an accident. The crime she practices is the "de luxe" game in which the woman poses as a seller of de luxe editions and involves some individual with a weakness for pretty girls, whereupon her confederate breaks into the scene and blackmails the victim whom he has found in an embarrassing position with his "wife" Norma Talmadge is especially suited for the title role in this screen drama since it calls for not only beauty, style and a high order of artistry in the part, but also for an innate intelligence and an intellectual background, added to the program will be a Mutt and Jeff comedy.

Tomorrow, Chaplin, in his latest million dollar contract picture, "Shoulder Arms" Two matinees, 1:30 and 3:30; two night shows, 7 and 9:30.

CHANGES COME IN DIVIDE EX SHAFT

A change has appeared in the formation in the shaft of the Divide Extension where at a depth of 162 feet, or 17 feet below the point where work was begun last week, Superintendent Bevis does not hold to the theory that the caprock extends to any great depth as the indications of mineralization are too general to sustain that belief. The surface plant of the Divide Extension is working like a clock and not a single hitch was encountered in getting underway.

CHANGES ORDERED IN AERONAUTICS

By Associated Press.
WASHINGTON, March 10.—William Kenly, director of military aeronautics, was relieved of that post today, returned to his permanent grade of colonel and ordered to report to the chief of field artillery for duty. Brigadier General William Mitchell will be detailed to command the army aviation service. The change in the command of the bureau of military aeronautics was said at the war department was the natural development of the reduction of that branch of the service. Very large cuts already have been made in the personnel of the aviation service and it is considered that an officer of the grade of major general is no longer needed to supervise the bureau.
